RECEIVED

March 19, 1997

MAR 19 1997

Mr. William F. Caton
Acting Secretary
Federal Communications Commission
Washington, DC 20554

Federal Communications Commission
OFFICE OF THE SECRETARY

Re: Ex Parte Filing - CC Docket Nos. 96-128/and 91-35 (Pay Telephones)
and GTOC Tariff Transmittal 1077 and GSTC Tariff Transmittal 198

Dear Mr. Caton:

This is in response to questions from the Competitive Pricing Division in this matter.

GTE interpreted the requirement in the Order on Reconsideration in the above dockets to file unbundled functionalities associated with "dumb and smart" pay telephones in both the interstate and intrastate tariffs to refer to the features and functionality which were related to the GTE pay telephone operations. The only feature which we believed was an unbundled functionality that needed to be filed in the interstate tariff was line-side answer supervision. GTE would have no objection to placing selective class of call screening in the interstate tariff. Per the Order on Reconsideration, we did not file the basic coin line in the interstate tariff.

Having said that, this will now reply to each of the questions (numbered below).

(1) Did GTE file every feature and function that LEC payphone operations are using?

No. There are other services which already exist in the interstate and/or intrastate tariffs for the use of ALL customers which we did not believe needed to be replicated in the pay telephone unbundled functionality filing specifically, such as billed number screening, international call blocking, and selective class of call screening. GTE did not file these in the pay telephone filing. Billed number screening (BNS) can be found on Page 129.7 in Section 4.2.22(K) of the GTOC tariff and Page 174.16 in Section 6.2.14(K) of the GSTC tariff; international call blocking is on Page 233.17 in Section 6.11 of the GTOC tariff and Page 399.1 in Section 8.9 of the GSTC tariff.

[Follow-up question: If not, what state tariff features and functions are available that are not in the interstate tariff (include those that are payphone related and those that are not)?]

Selective class of call screening is only in the intrastate tariffs. GTE operates in 28 states. (AL, AK, AR, AZ, CA, FL, HI, ID, IL, IN, IA, KY, MI, MN, MO, NE, NM, NC, OH, OK, OR, PA, SC, TX, VA, WA, WI, and the CNMI.) The attached Florida tariff may be used for illustrative purposes for this reference. The GTE interstate OLNS filing refers to how customers may determine their screening status.

No. of Copies rec'd 0+1
List ABCDE

(2) Did GTE file every feature and function that an independent pay telephone provider has available in the state tariff?

No. Selective class of call screening was not filed in the interstate tariff.

[Follow-up question: If not, what state tariff features and functions are available that are not in the interstate tariff (include those that are payphone related and those that are not)?]

Selective class of call screening.

(3) Did GTE file both chargeable and non-chargeable features and functions in its interstate tariff?

Yes, except for selective class of call screening. (See above.)

[Follow-up question: If not, what state tariff features and functions are available that are not in the interstate tariff (include those that are payphone related and those that are not)?]

Selective class of call screening.

(4) Did GTE file both existing features and functions as well as new features and functions?

No. GTE believed that billed number screening and international call blocking did not need to be replicated since they were in the interstate tariff already. It did not file the selective class of call screening in the interstate tariff since it had interpreted the requirement as referring to unbundled functionality.

[Follow-up question: If not, what state tariff features and functions are available that are not in the interstate tariff (include those that are payphone related and those that are not)?]

Selective class of call screening.

The following additional questions were propounded after preparing the above response:

(1) List both tariffed and nontariffed Network-Based and Payphone-Specific features and functions that your own payphone operations use as well as those an Independent Payphone Provider (IPP) would use.

There are no non-tariffed features and functions which GTE pay telephones use or which are being provided to IPPs. The rest of the response will be segregated into those which pertain to "dumb" instruments and those for "smart" pay telephones. Since GTE and an IPP could use either, the answers are the same.

For use with a "dumb" instrument, the subscriber (whether GTE or an IPP) would order a coin line from the state tariff. This provides the features necessary to make it work, including coin supervision and coin rating. It also provides answer supervision, billed number screening and selective class of call screening.

Mr. William F. Caton
March 19, 1997
Page 3

For "smart" instruments (whether GTE or an IPP), the operator would order a Public Telephone Access Service (like a B-1 line) and any features desired, such as BNS, international call blocking, answer supervision, and selective class of call screening. Either operator pays the same tariffed rates and charges for the services, features, and functions.

(2) For each of the features and functions listed in item 1, identify those which are used by your own payphone operations.

See reply above.

(3) For those that are tariffed, identify whether filed in the state tariff only or whether they are filed in both state and federal tariffs.

At the present time, selective class of call screening is only in the state tariffs, but as noted earlier, can be placed in the interstate tariff. Some features and functions may be in both tariffs, such as answer supervision which has been in the Florida state tariff since 1994.

(4) For those that are not tariffed, indicate the reason they are not identified.

None.

Several state commission required a "set use" fee to compensate IPPs for lost revenue from operator-handled local and intraLATA calls.

In reviewing the Roseville filing, GTE believes that Roseville should not have unbundled the coin supervision and coin rating from the coin line. GTE can not provide a separate rating table for IPPs using coin lines. If an IPP takes a coin line, it will use the GTE rate tables.

Two copies of this notice are filed in accordance with Section 1.1206(a)(1) of the Commission's Rules.

Sincerely,

F. Gordon Maxson
Director - Regulatory Affairs

A7. COIN TELEPHONE SERVICE

A7.3 Public Telephone Access Service for Customer-Provided Equipment (CPE)

.1 General

- a. Public Telephone Access Service (PATB) for CPE is an exchange line service provided at the request of a certificated PATB provider for telecommunication use.
- b. Public Telephone Access Service for CPE is provided for use with Individual Line Service and Private Branch Exchange (PBX) Service.
- c. The carriage and completion of local and intra-LATA toll messages are provided by the Company.
- d. Public Telephone Access Service for CPE is provided subject to the condition that telephone messages (local and long-distance) placed from stations which are accessible to the public are completed over Public Telephone Access Service for CPE lines (or other Public or Semipublic lines). Where Public Telephone Access Service for CPE is provided, any type or grade of residence or business service offered regularly at that location may be furnished in addition, provided such residence or business service is confined to locations solely for use by the particular establishment.
- e. Customer-provided public telephones may not be attached to other types of access lines. A subscriber must use a separate Public Telephone Access line for each CPE public telephone installed and will be billed the Tariffed rate for each line whether associated with Individual Line Service or with PBX Service. Where furnished in association with PBX Service, PATB access lines must be partitioned from all other PBX access lines. Off-premises extensions to customer-provided pay telephones are not permitted.
- f. Suspension of service, offered in A2.3.15, is not available to PATB access lines unless all factors indicate that the PATB instrument is located within an establishment which is temporarily closed and that the instrument is totally inaccessible to the general public. In all cases, the decision to permit temporary suspension of service for PATB rests with the Company.

.2 Responsibility of the Subscriber

- a. The subscriber shall be responsible for the installation, operation, and maintenance of any customer-provided telephones used in connection with this service. In addition, the subscriber is responsible for meeting all federal, state, and local statutes with respect to provision of customer-provided telephones in accordance with all hearing-impaired and handicapped person requirements.
- b. Customer-provided telephones must be connected to the Company network in compliance with Part 68 of the FCC Rules and Regulations and have the following operational characteristics except as specified in Section A7.3.8:
 - (1) Must be capable of providing access to all locally available long-distance companies where provisions for interexchange calling is provided.
 - (2) Must be able to access the "Operator" where 911 is not available at no charge to the calling party.
 - (3) Must be able to access 911 Emergency Service, where available, at no charge to the calling party.
 - (4) Must be able to access 1411 Directory Assistance at no charge to the calling party.
 - (5) The appropriate emergency number (Operator, 911) must be clearly posted at each location of a customer-provided telephone.
 - (6) Must clearly indicate procedures for obtaining a refund from the subscriber and that the customer-provided telephone is not being provided by the Company. (The Company is not responsible for refunds of coins deposited in customer-provided, coin-operated public telephones).

A7. COIN TELEPHONE SERVICE

A7.3 Public Telephone Access Service for Customer-Provided Equipment (CPE) (Continued)

.2 Responsibility of the Subscriber (Continued)

- (7) Must be equipped to return the coins to the caller in the case of an incomplete call.
- (8) The telephone number of the line must be displayed on each CPE telephone.

.3 Violations of Regulations

- a. Where any customer-provided telephone is used and/or connected in violation of this Tariff, the Company will promptly notify the customer of the violation.
- b. Failure of the subscriber to discontinue such use or to correct the violation will result in the suspension or disconnection within five business days after written notification of the subscriber's service until such time as the subscriber complies with the provisions of this Tariff.

.4 Optional Service Features

a. Central Office Blocking with Operator Screening

Where facilities permit, Central Office Blocking with Operator Screening is offered to provide a choice of restrictions at the subscriber's option. These options will be available where Public Telephone Access Service for CPE is provided (Reference A7.3.5). Outward Only service may only be provided in correctional institutions, schools, hospitals, and other locations that the Public Service Commission grants a specific exemption. Options are provided as follows at rates and charges specified in A7.3.5: (T)

- (1) Option 1 - Two-Way Service. Provides central office blocking of "011+1000", "1+900" and "1+976" calls. Provides screening information to the operator to prevent operator assisted, sent-paid calls from being billed to the line.
- (2) Option 2 - Outward Only Service. Provides central office blocking of "011+1000", "1+900" and "1+976" calls. Provides screening information to the operator to prevent operator assisted, sent-paid calls from being billed to the line.
- (3) Option 3 - Two-Way Service. Provides screening information to the operator to prevent operator assisted, sent-paid calls from being billed to the line.
- (4) Option 4 - Outward Only Service. Provides screening information to the operator to prevent operator assisted, sent-paid calls from being billed to the line.
- (5) Option 5 - Two-Way Service. Provides central office blocking of "1+000", "011+1000", "10XXX 1+", "10XXX 011+", "1+270", "1+976", and "1+900" calls. Provides screening information to the operator to prevent operator assisted, sent-paid calls from being billed to the line. (T) (C)
- (6) Option 6 - Outward Only Service. Provides central office blocking of "1+000", "011+1000", "10XXX 1+", "10XXX 011+", "1+270", "1+976", and "1+900" calls. Provides screening information to the operator to prevent operator assisted, sent-paid calls from being billed to the line. (T) (C)
- (7) Option 7 - Two-Way Service. Provides central office blocking of "011+1000" and "01+" calls. Provides screening information to the operator to prevent operator-assisted, sent-paid calls from being billed to the line. (T)
- (8) Option 8 - Outward Only Service. Provides central office blocking of "011+1000" and "01+" calls. Provides screening information to the operator to prevent operator-assisted, sent-paid calls from being billed to the line. (T)
- (9) Option 9 - Two-Way Service. Provides central office blocking of "1+000", "011+1000", "10XXX", "1+270", "1+976", and "1+900" calls. Provides screening information to the operator to prevent operator assisted, sent-paid, credit card, or third number calls from being billed to the line. (T) (T)
- (10) Option 10 - Outward Only Service. Provides central office blocking of "1+000", "011+1000", "10XXX", "1+270", "1+976", and "1+900" calls. Provides screening information to the operator to prevent operator assisted, sent-paid, credit card, or third number calls from being billed to the line. (T)

A7. COIN TELEPHONE SERVICE

A7.3 Public Telephone Access Service for Customer-Provided Equipment (CPE) (Continued)

.6 Optional Service Features (Continued)

b. Answer Supervision

- (1) Answer Supervision is the line side functionality that provides an electrical signal to the calling end of a switched telephone connection when the called line goes off-hook. Customer-Owned Pay Telephone (COP) Answer Supervision will be provided for use with Public Telephone Access Service as specified in Section A7.3.1 to assist in determining when billing for a specific call should commence.

.3 Rates and Charges (Continued)

a. Public Telephone Access Service for CPE--Rates and charges applied by the Company.

Public Telephone Access Service for CPE is provided on a Message Rate Basis or a Flat Rate Basis. (C)
(C)

(1) Message Rate Service

- (a) The following monthly rate is applicable to Public Telephone Access Service for CPE on a per-line basis.

Monthly Rate

(1) Two-Way, per Line

(a) Rate Group 1	\$19.20
Rate Group 2	21.04
Rate Group 3	22.00
Rate Group 4	23.00
Rate Group 5	23.96

(2) Outward Only, per Line

(a) Rate Group 1	19.20
Rate Group 2	21.04
Rate Group 3	22.00
Rate Group 4	23.00
Rate Group 5	23.96

- (b) The following Usage charges apply for calls within the local calling area as well as calls to the Extended Calling Service exchanges in Section A3.15.

	<u>Per Completed Call</u>	<u>Per Minute</u>
--	-------------------------------	-----------------------

(1) Monday - Friday, 10 a.m. - 8 p.m.

(a) Call Completion Charge Each Completed Call	\$.015	
(b) Minute of Use Rate. Each Minute		\$.015

(2) Monday - Friday, 8 p.m. - 10 a.m.
Saturday - Sunday, all day

(a) Call Completion Charge Each Completed Call	\$.01	
(b) Minute of Use Rate. Each Minute		\$.01

- (c) The following minimum monthly charge is applicable to Public Telephone Access Service for CPE. When the monthly rate for message rate service as described in A7.3.5a.(1)(a) and the usage charges for local and Extended Calling Service (ECS) calls as described in A7.3.5a.(1)(b) total less than \$30.00, an adjustment will be made to bring the total to \$30.00.

A7.3 Public Telephone Access Service for Customer-Provided Equipment (CPE) (Continued)

.5 Rates and Charges (Continued)

a. Public Telephone Access Service for CPE--Rates and charges applied by the Company (Continued)

- (7) Where Central Office Blocking with operator screening features are not available in the serving central office, Public Telephone Access Service for CPE may be provided from another office with applicable charges as provided in Section A9 of this Tariff for Foreign Central Office or Foreign Exchange Service, provided the subscriber's local calling area will not be changed thereby.
- (8) Service charges as covered in Section A4. of this Tariff for business individual line service are applicable.
- (9) (Deleted)
- (10) Listings in connection with Public Telephone Access Service for CPE are furnished under the same rates and regulations as other business service.
- (11) Directory Assistance charges are applicable as specified in Section A3.10 of this Tariff.

b. Rates and Charges Applied by the Subscriber to an End User

(C)

- (1) The rate charged for a local coin call shall not exceed a rate equivalent to the local coin rate of the local exchange telecommunications company, except that a provider using a debit card system may charge \$1.00 for a sent paid local call made from a pay telephone located in a confinement facility. Local calls placed through the Florida Relay Center from a customer-provided coin telephone are completed at no charge. (C)
- (2) Local sent-paid messages may be limited to a duration of 15 minutes, at the option of the subscriber.
 - (a) End users shall be notified at least 30 seconds prior to disconnection that the time limit is about to expire and that they will be disconnected if they do not deposit an additional 25 cents.
 - (b) A notice must be posted on the public telephone indicating that the end user will be billed an additional 25 cents after 15 minutes or be disconnected.
- (3) The rate charged for a 0+ or 0- local call shall not exceed the rate equivalent to the local coin rate of the local exchange telecommunications company, plus operator/calling card charges, plus the \$.25 set use fee charge. (C)
- (4) The rate charged for 1+ intralATA and interLATA toll coin calls shall not exceed a rate of \$.25 per minute, plus a \$1.00 surcharge. (C)
- (5) The charge for 0+ and 0- intraLATA toll calls shall not exceed the applicable Company time-of-day rate as set forth in Section A18 of this tariff, plus operator/calling card charges, plus the \$.25 Set Use Fee charge.
- (6) (Deleted) (D)
- (7) The rate charged for 0+ and 0- interLATA toll non-coin calls billed directly or on behalf of the pay telephone provider shall not exceed a rate of \$.25 per minute, plus the optional Commission authorized set use fee of \$.25, plus a \$1.00 surcharge. (C)

.6 Billing and Collection of Set Use Fee Charge

- a. A Set Use Fee Charge of \$0.25 will be billed to and collected from end users by the Company on behalf of Public Telephone Access Service (PATS) providers on each line equipped for the service. The surcharge applies to 0+ and 0- intraLATA/intrastate completed toll and local calls which originate from non-LEC pay telephone sets in Florida subject to the rules and regulations specified in Section A7.3.

A7. COIN TELEPHONE SERVICE

7.3 Public Telephone Access Service for Customer-Provided Equipment (CPE) (Continued)

.6 Billing and Collection of Set Use Fee Charge (Continued)

- b. The Company will produce a record of the number of calls completed and billed from each Non-LEC pay telephone set equipped for this service. The company will bill and collect the authorized Set Use Fee charge in addition to the toll and operator service charges specified in A7.3.5.
- c. The Company will issue a credit on the monthly bill rendered to the PATS provider which will (C) equal the billed Set Use Fee charges minus the adjustments for bad debts. The bad debt percentage deducted from the vendor's Set Use Fee remittance is determined by dividing an average six months' GTE Florida bad debt by an average six months' associated billed revenues.
- d. An end user's service may be denied due to nonpayment of the Set Use Fee charge subject to the rules and regulations specified in Section A2.4.
- e. Billing and Collection Service will be provided under the following conditions:
 - (1) The procedures utilized for the application and payment of federal, state or local sales, use, excise, or other taxes or tax-like fees to be imposed on a subscriber to Public Telephone Access Service applicable to its end user shall be those used by the Company. When the subscriber is required to provide the Company with notification of tax changes or new taxes applicable to service provided by the subscriber or with any direction, information, or advice concerning performance of any tax related service, the subscriber will indemnify the Company and hold it harmless from and against liability or loss of whatever kind which may result from the subscriber's failure to comply with such requirements. Should any federal, state, or local jurisdiction determine that sales, use, excise, gross receipts or any other taxes (including interest, penalties and surcharges thereon) are due by the subscriber as a result of the Company's billing of the surcharge for the subscriber, the Company will advise the subscriber and the subscriber shall be liable for any such tax, interest, penalties and surcharges, and the subscriber shall immediately reimburse the Company the amount of such tax, interest, penalties and surcharges paid by the Company.
 - (2) (Deleted)
 - (3) The Company shall not be responsible for calls that cannot be completed as a result of repair or maintenance difficulties on Company facilities and equipment nor on equipment owned by the subscriber.
 - (4) The Company report of the number of calls completed from each Non-LEC Pay Telephone equipped for this service will serve as the sole document upon which remittance will be made. The Company will not be liable for incorrect counts of completed calls resulting from lost or damaged tapes or program failures.
 - (5) The Company reserves the right to provide to the general public, upon specified request, the complete address and telephone number of the subscriber in response to inquiries and comments referring to subscriber services.
 - (6) If service is disconnected, all remittance money due the subscriber of this service may be credited or applied to the final bill issued for the recurring charges associated with this Tariff.

.8 PATS Inmate Telephone Service Restrictions (D)

a. Subject to other applicable provisions of this tariff, the following provisions also apply to PATS Inmate Telephone Service:

- (1) May be arranged by the administrator to terminate calls after 15 minutes of conversation time or in cases of emergency in accordance with any Rules or Regulations of the Commission. Notice of disconnect must be made to the end user prior to terminating the call. The Company will not provide credit or equivalent service to the called or calling parties for such calls.
- (2) May be arranged to block Directory Assistance (411) and Emergency (911) calls.
- (3) May be arranged by the administrator to deny access to all locally available interexchange carriers.
- (4) The charge for a local call placed on an inmate debit card phone may not exceed \$1.00.

A7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service

.1 Definitions and Requirements

- a. Customer-Owned Pay Telephone (COPT) Coin Line Service is a coin voice grade exchange line that provides switch based dial tone first (DTF) coin line functionalities for non-Local Exchange Company customer-owned pay telephones.
- b. COPT Coin Line Service is provided at the request of a certificated Public Access Telephone Service (PATS) provider that provides pay telephone service with switch based coin line functionalities to the public on a resale basis.
- c. A COPT Coin Line subscriber must use a separate COPT Coin Line for each pay telephone instrument installed and will be billed the tariffed rate for each line. Off-premise extensions to a COPT Coin Line are not permitted.
- d. Where COPT Coin Line Service is provided, any type or grade of residence or business service offered regularly at that location may also be furnished, provided such residence or business service is confined to locations solely for use by the particular establishment.
- e. The carriage and completion of local and intraLATA toll messages are provided by the Company.
- f. Bundled central office blocking and operator screening functions as specified in Section A7.3.4a. of this Tariff are not available with COPT Coin Line Service.
- g. The Company shall not be liable for shortages of coins deposited and/or collected from the COPT Coin Line subscriber's equipment.
- h. The Company shall not be liable for end-user fraud associated with failure of the subscriber's equipment to perform.
- i. Suspension of service as specified in Section A2.3.15 of this tariff is not available to COPT Coin Line Service unless the instrument is located within an establishment which is temporarily closed and, as such, will be totally inaccessible to the general public for the period of suspension. In all cases, the decision to permit temporary suspension of service for a COPT Coin Line rests with the Company.
- j. COPT Coin Line Service will be provided from central offices where facilities are available.

A7. COIN TELEPHONE SERVICE

A7.3. Customer-Owned Pay Telephone (COPT) Coin Line Service (Continued)

.2 Features

- a. Service is provided in equal access Stored Program Control (SPC) central offices where coin line control equipment is available.
- b. Service is provided on a two-way basis except where a specific exemption has been granted by the Public Service Commission to allow the line to be configured to prohibit incoming calls.
- c. Coin signaling, including coin collect and coin return, is provided by the network. Coin collect identifies when a call is completed. Coin return occurs when a no answer or busy signal is encountered.
- d. Billed Number Screening is provided for the automatic blocking via validation data bases of third number billing, collect billing, or both to the line.
- e. Selective Class of Call Screening is provided to alert operator services systems (live and mechanical) that a call is originating from a COPT Coin Line which may require special handling and billing treatment.
- f. Central office 900 and 976 blocking is provided.
- g. Standard recorded announcements used for calls from the Company's Public Telephone Service pay telephones are used for calls that originate from a COPT Coin Line.
- h. All 0+, 0+ and 1+ intraLATA toll calls and 0+ local calls are handled by the Company's operator services system.
- i. All 0+ interLATA calls are routed to the presubscribed carrier.
- j. All direct dialed interLATA and international (1+, 10XXX+1, 101XXX+1, 011+) calls will be forwarded to AT&T for coin rating and completion until such time as other carriers provide sent-paid service. (C)

.3 Responsibility of the Subscriber

- a. The subscriber is subject to the requirements set forth in Sections A7.3.1.f., A7.3.2 and A7.3.3 of this Tariff.
- b. The subscriber is responsible for the payment of all charges for outgoing sent-paid local calls and message toll telephone service calls.
- c. Special billing and coin sharing arrangements between a COPT Coin Line Subscriber and another carrier are the responsibility of the COPT Coin Line subscriber.
- d. It is the subscriber's responsibility to ensure instruments used in conjunction with the COPT Coin Line Service are capable of rating sent-paid local calls.

.4 Rates and Charges

- a. COPT Coin Line Service is provided on a Fixed Rate basis. The following monthly rate is applicable for COPT Coin Line service on a per-line basis.

	Rate Group	Monthly Rate	REG
(1) Two-way, per line	1	\$ 31.25	COPTCOIN
	2	34.37	
	3	37.81	
	4	41.59	
	5	45.75	
(2) One-way, per line	1	31.25	COPTCOIN1W
	2	34.37

A7. COIN TELEPHONE SERVICE

A7.5 Customer-Owned Pay Telephone (COPT) Coin Line Service (Continued)

.4 Rates and Charges (Continued)

- b. No charge will be imposed for incoming calls.
- c. Sent-paid local calls will be rated at the Company's central office. Local messages include (C) calls made to Extended Calling Service (ECS) exchanges listed in Section A3.15.
- d. Operator assisted sent-paid local calls will be rated to the end-user at the rate of .25 cents per message, plus the appropriate additive operator service charges as specified in Section A3. Non-sent paid local calls will be rated to the end-user at the rate of .25 cents per message and the appropriate additive operator service charges as specified in Section A3, plus the set use fee as provided in Section A7.2 of this Tariff.
- e. Operator assisted sent-paid toll calls will be rated to the end-user at the long distance rate, plus the appropriate additive operator service charges as specified in Section A18. Non-sent paid intralATA toll calls will be rated to the end user at the long distance rate and the appropriate additive operator service charges as specified in Section A18, plus the set use fee as provided in Section A7.2 of this Tariff.
- f. The appropriate Network Access Charge, Central Office Line Connection Charge, and/or Premise Visit Charge as specified in Section A4 of this Tariff are applicable for each COPT Coin Line installed, moved, or changed.
- g. Calls to 1411 Directory Assistance will be provided at no charge to the end-user. Calls to long distance Directory Assistance Service will be charged the rate specified in Section A18.6 of this Tariff.
- h. Rates for Verification and Emergency Interrupt Service as specified in Sections A3 and A18 of this Tariff are applicable.
- i. Subscribers to Customer-Owned Pay Telephone (COPT) Coin Line Service may be listed in the directory as specified under "Directory Listings", Section A6.
